

# WALLINGFORD REGATTA 2010 - COURSE EVACUATION

In the event of a thunderstorm (or any other event which requires a full course evacuation), any races in progress will continue to the finish, and boats in the warm-up lake will be turned on to the main course once any race in progress has passed. Listen carefully to umpires' and marshals' instructions. Use any of the rafts - take care not to foul the "swim line" by the two rafts closest to the warm-up lake.
